

Sheriff Office of WA

Wesbar Vanquip recently fitted out five Isuzu Mux vehicles with a dual battery system to increase running time for IT and other tech accessories. Drawer systems were also installed into the rear of the vehicle to provide storage and maximise space.

Sporting Promotions Van is Red Hot!

The word is "orange is the new black" and this fit out was a scorcher... The build comprised a serving hatch stretching 2.2m, a cool drinks fridge, large led monitor for promotion videos, full height shelving, fully lined interior and astro turf flooring. A slide out 3kva generator was also fitted to provide all appliances with enough power to last...

Mobile Tyre Showroom

Created 3 zones within an iLoad to accommodate storage for 2 tyre displays, a promotional TV screen and product display area. Drawer system and partitioning created from polished propeller plate.

Cable Splicing Hatch

Designed to replace the factory fitted rear window, our custom made cable splicing hatch is constructed from lightweight aluminium and powder coated black. Comprising 2 doors in one (a large door for lifting/small door to protect the cabling) the hatch features gas struts for easy operation when handling cabling and collars of varied girth with rubber dust seals to carry out the splicing process out of the elements. The hatch is fitted with 2 slam latches, lockable from the inside, for improved security and privacy or to lock it closed while driving or parked overnight.

The **City of Perth Ranger** vehicles have been fitted to respond to any situation within the community. Custom designed within a VW Transporter to accommodate a range of equipment from road cones and oil spill bags to temporary road signage. Emergency exterior lighting was also installed to improve visibility and safety.

Dust Damage?

Constructed from 63.5mm steel tubing with silicone prefabricated bends, the Wesbar Snorkel high position intake stack for the precleaner fits seamlessly into the airbox.

Powder coated and secured with a blue silicone elbow sleeve into the Bull Bar, the robust, lightweight design of the Wesbar Snorkel is ideal for those working out in the bush or off road.

Mobile Retail Clothing Shop

Slat wall lined the interior of the vehicle to provide product hanging space. Front cabinet provides privacy for change room with full height mirror. White laminate cupboards, a perfect contrast to the vibrant flooring and accessories, complete the mobile shop, a trend about to explode in WA.

A Quantum Leap

Our new Quantum range is tough, strong and durable. Sleek and modern in design, you get the flexibility of a fully adjustable high quality shelving and storage solution, without the expensive price tag .

Recent vehicle fit outs include the Mercedes Vito 114 LWB; Ford Transit Custom and a Toyota HiAce LWB, attracting lots of attention at a recent Trade Show.

Leading Edge

Wesbar has a long standing relationship with Guide Dogs WA and recently completed custom fit outs to 4 VW Caddy Vans.

Fitted with emergency door systems, dog safety dividers (powder coated to minimise corrosion), removable centre dividers for adult dogs, air vents and additional windows, the vehicles were completed within the week, ready for the 'new recruits'.

From Outback Packs for utes to Courier Packs and Top Grade Trade Packs for commercial vans, innovation and quality go hand in hand with our custom fit out solutions, making your dream a reality.

We specialise in expanding the capability of vehicles but the 2016 portfolio provoked unusual requests. Delighted, though sometimes surprised, we have stretched the boundaries and delivered on imagination, relevant, quality and price.
